

Getting help in hospital

<p>Coming into hospital can be scary.</p>	
<p>There are lots of people who can help you.</p>	
<p>If you are scared of coming into hospital for treatment, it is a good idea to come in and have a look around first.</p>	
<p>Your carer can arrange this by speaking to the department or contacting the Learning Disability Liaison Nurses.</p>	

When you visit the hospital you can see where you will be going when you come in as a patient.

You will find out what will happen when you are a patient.

If there is going to be a long wait to see the doctor on the day of the appointment, your carer should give their mobile phone number to the clinic reception staff

You and your carer can then go and wait somewhere that is less crowded until the doctor is ready to see you.

If you or your carer needs help while you are in the hospital, ask one of the nurses to either call the Learning Disability Liaison Nurses on ext 8159 or on mobile number 07879 425 803 or 07500 559177.

All the staff in the hospital wear a name badge and when they speak to you, they should always tell you their name.

If you need help finding the ward or department, you can ask at the reception desk or one of the Welcomers (who wear yellow badges) where to go.

There is a buggy that can drive you to the clinic or ward if it is a long way or you have difficulty walking.

More information for people with learning disabilities and their carers can be found on the Trust website at:
www.royalberkshire.nhs.uk

Also available in this series:

- Going into hospital
- Going to the Acute Medical Unit (AMU)
- Going to the Emergency Department (A&E)
