

Guides Specifically for Children and Young People's Medicine

Many guides about medicines for children are written for parents/carers. They often use clear direct language so anyone who is not a health professional can benefit from looking at them – including children and young people themselves.

Medicines for Children

Printable leaflets which can be searched by medicine name, brand name, or by the condition, disease or infection that the medicine is treating your child for. Find practical and reliable information about the medicine that your child needs and how to give it.

Medicines for Children is a partnership programme of three organisations{

WellChild Royal College of Paediatrics and Child Health (RCPCH) Neonatal and Paediatric Pharmacists Group (NPPG)

Aimed mainly at parents/carers but secondary age children would have no problems using the site.
