Enhanced recovery

Your relative/friend is on an enhanced recovery ward. This means there are certain milestones that we will help them achieve in order to leave hospital safely and at the right time.

Get out of bed and stretch their legs with help from the therapists.

Get washed and dressed in their day clothes.

Drink plenty of fluids to help keep them hydrated and eat regular meals.

Be involved in decisions about their care. Family/carers can be involved in decisions too.

Doctors will monitor them and their medications regularly.

How are they getting home? Once they have a discharge date, they will need a lift with a family member or friend.
