

Where to get your child's blood test

This leaflet lists different locations where your child can have a blood test.

Royal Berkshire Hospital (RBH) – PLEASE NOTE:

- Children aged **under 12** can only have blood tests carried out in the Children's Outpatients Clinic or on Kempton Ward Day Bed Unit.
- Children **aged 12 & over** can have bloods taken at the Blood Tests clinic (Phlebotomy).
- Children **of all ages with additional or complex needs** can only have bloods taken at Kempton Ward Day Bed Unit.

Children needing additional support (RBH)

Some children find blood tests very difficult. Our Play Specialists can provide support prior to the blood taking appointment and do some preparatory work with your child. Appointments with the Play Specialists are available, please contact the play team via email on paediatric.playteam@royalberkshire.nhs.uk or alternatively please call **0118 322 7519** and ask to speak to a member of the Play Team.

Community sites**West Berkshire Community Hospital**

Suitable for:	Children aged 5 years-16 years , including those with additional needs . For children under 5 years of age, please call Kempton Ward on 0118 322 7383.
Where:	West Berkshire Community Hospital Phlebotomy Department, RG18 3AS
When:	Every Friday 8.15am- 3.15pm for routine and urgent blood tests. Very urgent requests will be fitted in during weekday mornings, where possible.
Bookings:	APPOINTMENTS ONLY (no walk-in service) Tel: 0118 904 7900 and select option 3 to talk to a receptionist. Please mention your child's age at the time of booking. For further information please visit https://www.berkshirehealthcare.nhs.uk/our-services/physical-and-community-healthcare/blood-testing-phlebotomy/
Blood forms:	Please ask your hospital doctor or GP to print a blood request form and bring it with you.

Bracknell Healthspace

Suitable for:	Children 12 years of age & over requiring a blood test.
Where:	Eastern Gate, Brants Bridge, Bracknell RG12 9RT.
When:	Monday-Friday: 8.00am – 3.30pm.
Bookings:	APPOINTMENTS ONLY (no walk-in service) Book online at www.swiftqueue.co.uk
Blood forms:	Please ask your hospital doctor or GP to print a blood request form and bring it with you.

Important guidance

Ask your GP or hospital doctor for local anaesthetic cream if you think your child will need it. Apply it to the area instructed by the doctor 30 minutes before your appointment time and cover the site with cling film. This will ensure the site will be numbed at the right time. We also offer cold spray to numb the area instantly instead of cream.
