Low Vision Clinic

Information for patients

This leaflet is for patients referred to the low vision clinic and explains about the loan of your magnifier.

You have been seen in the low vision clinic here at the Prince Charles Eye Unit, where you have been supplied with a magnifier or visual aid to try at home.

This is on loan to you from the hospital for as long as you need it.

Please take good care of any aids that have been issued to you and please return any that you do not use.

If you are having any difficulties with your magnifier or visual aid or would like to make a follow-up appointment, please telephone:

01753 636431
