Your Cancer Clinical Nurse Specialist

Information for patients
and relatives

Cancer often brings about new feelings and concerns.

**Your Cancer Clinical
Nurse Specialist can help!**

Your Cancer Clinical Nurse Specialist (sometimes called your Key Worker) is a qualified nurse with extensive knowledge and experience in cancer nursing. They work closely with you, your consultant and the team involved in your care.

Their role is important as they will assess the needs of you and your family and they can offer you psychological support, advice and information on a range of issues. They can also recommend or refer you to other specialist support services that you may not be aware of.

They are one of the main people involved in co-ordinating your care and are a good link between you and other members of the team in the hospital and at home.

If you wish to talk to your Cancer Clinical Nurse Specialist then please do not hesitate to contact them on the telephone number below **please ensure you leave a message on their answer machine** and they will return your call as soon as they are able.
