Rehabilitation  
treatment at  
Lynden Hill Clinic

Information for  
patients, relatives  
and carers

---

During the Covid-19 pandemic of 2020, the Royal Berkshire NHS Foundation Trust has developed a partnership with Lynden Hill Clinic. This leaflet explains what this might mean for your continuing rehabilitation.

---

Lynden Hill Clinic is a family owned Rehabilitation clinic and provides specialist treatment for orthopaedic and neurological conditions.

This new partnership allows some inpatients of the Royal Berkshire Hospital (RBH) access to the rehabilitation beds that are currently available at Lynden Hill Clinic.

## Continuing your rehabilitation

The multi-professional team providing your acute care at the RBH have identified that you would benefit from further rehabilitation as an inpatient in a rehabilitation environment. At present, you will be working with the team to achieve your desired goals from your treatment.

It is felt that you would benefit from continuing your intensive rehabilitative stay at Lynden Hill Clinic, Kiln Green, in one of the Royal Berkshire NHS Foundation Trust's appointed beds. Here you will continue to take advantage of the full multi-professional team of clinicians, for a period of time that is agreed between the hospital team and yourself in advance.

You will only be transferred when your consultant agrees that you are well enough; and in the event of you becoming unwell, you will return to the RBH to continue your care.

This is at no cost to you as the patient. The beds commissioned are NHS beds.

If you have any further questions about Lynden Hill please speak to the Lynden Hill clinical or management team.

### Address

Lynden Hill Clinic,  
Linden Hill Lane,  
Kiln Green  
Berkshire
